

Beehive 1.0 Beta Documentation

Beehive documentation contains documentation for all three Beehive sub-projects:

- [Controls](#) (../controls/getting_started.html)
- [Page Flows](#) (../pageflow/getting_started.html)
- [Web Services](#) (../wsm/getting_started.html)

If you are new to Beehive, begin by following the [Installation and Startup](#) (../setup.html) instructions.

See the **user guides** for the Beehive sub-projects:

- [Controls Overview](#) (../controls/controlsOverview.html)
- [Page Flow Overview](#) (../pageflow/pageflow_overview.html)
- [Web Service Overview](#) (../wsm/wsm_overview.html)

The following **tutorials** will familiarize you with the basic development cycles for Beehive applications:

- [Beehive Controls Tutorial](#) (../controls/tutorial_controls.html)
- [Beehive Page Flow Tutorial](#) (../pageflow/tutorial_pageflow.html)
- [Beehive Web Service Tutorial](#) (../wsm/tutorial_wsm.html)

Beehive ships with the following **samples**:

- [Petstore Sample](#) (../jpetstore.html)
- [Page Flow Samples](#) (../pageflow/netui-samples.html)
- [Page Flow: JSF Integration](#) (../pageflow/sample_jpf_jsf_integration.html)
- [Web Service: AddressBook Enhanced](#) (../wsm/sample_AddressBookEnhanced.html)
- [Web Service: AddressBook from WSDL](#) (../wsm/sample_AddressBookFromWSDL.html)

The following **project templates** will help you get a project started:

- [Project: Page Flow](#) (../pageflow/sample_netui-blank.html)
- [Project: Control](#) (../controls/sample_controls-blank.html)
- [Project: Web Service](#) (../wsm/sample_wsm-blank.html)
- [Project: Web Service Control](#) (../system-controls/webservices/sample-ws-control-blank.html)
