

# Apache POI - In the News over the world

by Andrew C. Oliver, Tetsuya Kitahata

## 1. POI in the news

These are articles/etc. posted about POI around the web. If you see POI in the news or mentioned at least somewhat prominently on a site (not your homepage that you put the work POI on in order to get us to link you and by the way here is a picture of your wife in kids) then send a patch to the list. In general equal time will be given so please feel free to send inflammatory defamation as well as favorable, technical and factual. Really stupid things won't be mentioned (sorry).

## 2. English

- [Discussion about using POI on AS/400s](#)
- [Discussion from back when we almost had POI as the filter for KOffice if politics and licenses hadn't killed it](#)
- [Java discussion on O'Reilly Network including discussion about POI](#) - O'Reilly.net
- [Poor Obfuscation Implementation](#) - Blog of David M. Johnson
- [POI 1.5-dev-rc2 released](#) - JSurfer
- [Google says we're the most important in our category](#)
- [It's POI-fect](#) - Tony Sintes, Javaworld
- [Nicola announces POI serialization code](#) - Matthew Langham's Radio Weblog
- [Jakarta POI 1.4583 Released](#) - JavaLobby
- [POI project moves to Jakarta \(OLE 2 CDF/Excel/Word in pure java\)](#) - JavaLobby
- [List of Java libraries to read and write image and document files](#) Marco Schmidt's homepage (normally we wouldn't feature someone's homepage but its an extensive list of information including "alternatives to POI" (for those of you who are very wealthy). But heck I think I'll bookmark his page for myself since he's like got every piece of info known to man linked or featured on it!
- [The Experiences of an Operator \(Måns af Klercker\)](#) - radio.weblogs.com
- [DATACONV - Data Conversion Tools: Office](#) DATACONV
- [Chicago Developer Page](#)

- [POI/POI Serialization Project](#) - Man you know you've hit the bigtime when O'Reilly Likes you.. ;-)
- [News Around the Net](#) - Java World

### **3. Nederlandstalige (Dutch)**

- [Een Excel-werkboek maken vanuit Java - Lieven Smits](#)

### **4. Deutsch (German)**

- [Apache POI verffentlicht](#) - entwickler.com
- [Apache Jakarta-Projekt bringt Word und Excel in die Java-Welt](#) - jsp-develop.de (for the misguided who use JSP ;-)
- [Neues Apache-Projekt bringt Word- und Excel nach Java](#) - entwickler.com

### **5. Español (Spanish)**

- [OLE2 desde Java nativo](#) - javaHispano
- [Spanish discussion about Excel and Java including POI from Wrox forums](#)

### **6. Français (French)**

- [Excel/OLE accessibles](#) - Da Linux French Page
- [Discussion on POI in French](#)

### **7. Nihongo (Japanese)**

- [100% PureJava...](#) - Dr. Panda Portal
- [What's new with java?](#) - gimlay.org
- [Java de Excel](#) - How to use Japanese with POI
- [Various discussion in Japanese including on POI](#)
- [Japanese resources on Jakarta projects including POI](#)
- [Kishida's site](#) -- Weekly Forte Lectures -- includes a snip about POI and Japanese.

### **8. Russkii Yazyk (Russian)**

- [Probably a translation of the Javalobby announcement of 1.5-final](#) -- Computer News (What's New)

### **9. Hangul (Korean)**

- [Various discussion in Korean about Excel output/APIs including POI](#)

### **10. No freaking idea**

If you can read one of these languages, send mail to the list telling us what language it is and

## *Apache POI - In the News over the world*

we'll categorize it!

- [If I had to guess, I'd say this is Thai, but maybe you actually know](#) - javacentrix.com
