

# Dev Todo List

\$Revision: 1.4 \$

by Vladimir R. Bossicard

## 1. Introduction

For a new version of Xindice to be released, these following todos must be completed. Do not expect anything if these tasks are not done! So if you want to see a new release before the end of the millenium, choose your task!

## 2. Development

- `build.xml`: generate the `tar.gz` and `zip` files.
- create `jsp` pages to replace the ugly debug tool.

## 3. Documentation

- Define the tables of content for the different guides and fill in the holes!
